***Manufacturer of  
Engineered  
Concrete Siding  
Products***

**"A TRUELY environmentally friendly  
product, just incredible!"**

Darren Beckett

**"Amazing Product"**

Ken Covington

**"Wow! Can't believe this is not real  
wood"**

Mark Blair

## The **HAND-HEWN LOG** Products

\*\*\*All products are applicable for Exterior **AND** Interior Applications\*\*\*

### **Hand-Hewn Log Siding**

*Better Than Logs™* Hand-Hewn Log Siding (HH12) is designed to replicate a 12" square hand-hewn log. We developed the Hand-Hewn Log Siding products with actual broad-ax characteristics and features of "Real" 12" Hand-Hewn Logs, without the required maintenance, repair, and issues generally associated with "real" wood sidings and logs.

### **Hand-Hewn Log Door and Window Trims**

Our Hand-Hewn Log Siding (HH12) is complimented by specifically designed and developed Hand-Hewn Trims in two widths, 8" (CTR8) and 6" (CTR6). These two trims are designed to attractively trim door and window openings.

### **Hand-Hewn Log Corner Trims**

Two attractive options are available to trim corners of Hand-Hewn Log Siding (HH12) project's:

Hand-Hewn End Tailings

(ETHHS12)(ETHHL12)

Corner-Board Trim (CTR8 and CTR6)

*Additional information and details are available at [betterthanlogs.com](http://betterthanlogs.com)*

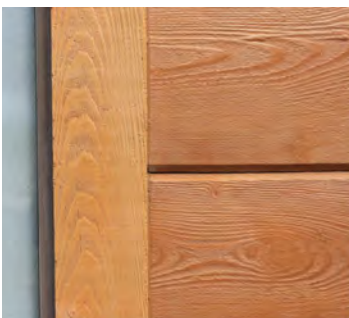

---

## The **SHIPLAP** Products

\*\*\*All products are applicable for Exterior **AND** Interior Applications\*\*\*

### **Shiplap Siding**

*Better Than Logs™* Shiplap Sidings are available in two widths, 12" (SL12) and 8" (SL8). Both widths of siding offer impressive grain detail and an incredibly realistic appearance that completes the "real wood" look.

### **Shiplap Trims**

*Better Than Logs™* Shiplap Trims include 8" (CTS8), 6" (CTS6), and 4" (CTS4) for use in trimming window openings, door openings, and corners. The three trims properly contrast the impressive grain detail of the Shiplap Siding Products.

## The **HALF-ROUND LOG** Products

\*\*\*All products are applicable for Exterior **AND** Interior Applications\*\*\*

### **Half-Round Log Siding**

*Better Than Logs™* Half-Round Log Siding (HR12) is designed to replicate a 12" diameter log. The Product has all the characteristics and features of "Real" 12" Round Logs, without the required maintenance, repair, and issues in general associated with "real" wood sidings and logs.

### **Half-Round Log Door and Window Trims**

Our Half-Round Log Siding (HR12) is complimented by specifically designed and developed Half-Round Trims in two widths, 6" (CTHR6) and 5" (CTHR5). These two trims are designed to attractively trim door and window openings.

### **Half-Round Log Corner Trims**

Half-Round Log Siding (HR12) project's corners can be impressively trimmed in two different manners:

Half-Round End Tailings  
(ETHRS12)(ETHRL12)

Post Corner Trim (PC12)

*Additional information and details are available at [betterthanlogs.com](http://betterthanlogs.com)*

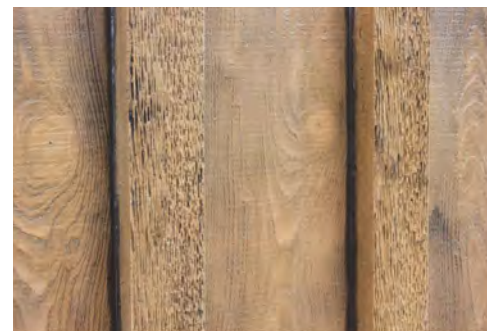

---

## The **BOARD AND BATTEN** Products

\*\*\*All products are applicable for Exterior **AND** Interior Applications\*\*\*

### **Board and Batten Siding**

*Better Than Logs™* Board and Batten Siding (BB12) is designed to replicate Traditional 12" Board and Batten sidings. The Product, unlike most modern B&B options, does not require an 8' ledge seem. The Better Than Logs™ Board and Batten product has the ability of being a "seamless" instal.

### The **COMPLIMENTARY CONCRETE** Products

#### **Posts**

*Better Than Logs™* Posts (P12 and P6) are available in 12" and 6" diameters. The Posts are designed for architectural accents, they are not intended to be structural members. The 12" diameter posts (P12) are available in 10' lengths and the 6" diameter posts (P6) are available in 12' lengths.

## **ADDITIONAL INFORMATION**

### ***Better Than Logs™ Product Colors:***

(Colors do vary some by product style and batch)

## **ADDITIONAL PRODUCTS**

*Additional information and details are available at [betterthanlogs.com](http://betterthanlogs.com)*

### **Chinking Materials**

*Better Than Logs™ Chinking Products offer supreme adhesion and long-time performance when properly applied to *Better Than Logs™* siding and trim products. Our chinking is available in (8) colors, and is designed to properly resemble "traditional mortar".*

### **Sealant Materials**

*Better Than Logs™ Sealant Products are designed to complete, seal, and protect all *Better Than Logs™* Siding and Trim installations. The *Better Than Logs™* Sealants are color matched to the five standard colors. The sealant is engineered to remain elastic and pliable over time, and supplies superior sealing qualities.*

### **Hardware**

*Better Than Logs™ Hardware is specifically designed and constructed for the installation of the *Better Than Logs™* Siding and Trim products. The Hardware offers excellent resistance to corrosion, and superior holding strength.*

### **Installation**

*Better Than Logs™ Product Installation is generally simple and well within the abilities of most experienced "Do-It-Yourselfer" customers. If a professional installer is desired, *Better Than Logs™* does have access to trained, qualified, and trustworthy Contractors, information that can be shared with *Better Than Logs™* customers upon request.*

### **Warranty**

*Better Than Logs™ Sidings and Trims are backed by a Limited Lifetime Warranty covering materials and surface coloring of the products.*
