

Here is a beautiful log home located in northern Indiana. The land, handed down to the homeowners by family, is still used to grow crops and livestock. For the home these homeowners wanted a rustic look to fit in with the landscape. They were led to choose Better Than Logs Siding for looks as well as maintenance benefits.

Shown above, Better Than Logs Hand Hewn Concrete Log Siding With Flange (HH12WF) with our 6" Hand Hewn Trim (CTR6) around the windows and doors. On the corners, Better Than Logs Hand Hewn End Tailings (ETHHS) is used to give the look and feel of a conventional hewn log home. All of these products were finished in our standard Dark Brown color
