

## BETTER THAN LOGS HAND HEWN CORNER TRIM OPTIONS

We at Better Than Logs want to offer you as many options as we can for your home's siding. Shown below are the two options we offer for Corner Trim on our Hand Hewn style Siding. The first photo shows our Hand Hewn End Tailings (ETTHS) on the corners, giving the illusion of long hewn timbers protruding out at each corner. The second photo shows our Corner Trim (CTR6 & CTR8) finishing the corners in a clean and concise way. With our 9 different styles of sidings and 6+ different colors, Better Than Logs has something for every taste.
